*Work undertaken by:* Birmingham Archaeology

An archaeological assessment was carried out on the road. The assessment identified that the road at King Street possibly followed the line of a Roman Road. Cantlop Bridge was identified as Listed and a Scheduled Ancient Monument. The route of the improvements also took in the site of a former toll house and a mill race which were the only sites identified that would be affected by the road improvements. [Au(abr)]

*Work undertaken by:* Richard K Morris & Associates

An archaeological assessment was carried out on the proposed redevelopment area. The assessment identified several important late post-medieval to modern historic buildings. The assessment also identified that the study area had high potential for medieval archaeology, which comprised houses, gardens and part of the medieval Friary. [Au(abr)]

*Archaeological periods represented:* MD, PM
