Bales, E Ipswich : Suffolk County Council Archaeological Service, 2003, 27pp, figs, tabs, refs

Work undertaken by: Suffolk County Council Archaeological Service

An archaeological assessment was carried out on the proposed mineral extraction site. No archaeology was identified at the site but the proximity to several Neolithic and Bronze Age tumuli suggested that it had the potential for archaeology. [Au(abr)]

Work undertaken by: Suffolk County Council Archaeological Service

An archaeological assessment was carried out on the proposed development site. The assessment found that early medieval archaeology had been identified on the site in the 18th century and that the site had potential for early medieval and medieval occupation. [Au(abr)]

Loader, T & Breen, A Bury St. Edmunds : Suffolk County Council Archaeological Service, 2003, 20pp, colour pls, figs, tabs, refs

Work undertaken by: Suffolk County Council Archaeological Service

An archaeological assessment was carried out on the two areas of the proposed development. Both sites had previously had small scale excavations. The assessment identified, from the excavations and the locations, that there was high potential for occupational and structural remains from the Saxon period to the late post-medieval period. Further work was recommended. [Au(abr)]
