PROPOSED WIND FARM, ELSHAM WOLD

Archaeological Desk-Based Assessment, Proposed Wind Farm, Elsham Wold, North Lincolnshire

Clay, C Lincoln : Pre-Construct Archaeology (Lincoln), 2003, 18pp, colour pls, figs, tabs, refs

Work undertaken by: Pre-Construct Archaeology (Lincoln)

The site was considered to be of medium archaeological potential. Site specific resources were low in number, but the site itself was situated within a rich landscape setting, with important sites and artefacts of prehistoric to medieval date. This occupied the general area, particularly to the north, north-west and west of the proposed development area. [Au(abr)]
