CAMPUS 3 DEVELOPMENT, ZONE E, UNIVERSITY OF YORK***Campus 3 development, Zone E, University of York, Archaeological Desk Top Study***

McComish, J & Mason, I York : York Archaeological Trust, 2003, 24pp, pls, colour pls, figs, tabs, refs

Work undertaken by: York Archaeological Trust

The study identified a considerable amount of evidence of archaeological activity both in the general area, as well as directly within the study area itself. Recent fieldwalking suggested that there was prehistoric activity. In addition, there was a number of Roman stray finds, a possible Roman building to the north and two Roman burials to the east (it was thought possible that the cemetery extended into Zone E). A field to the east of Heslington parish church was the site of a tithe barn which originated in the medieval period and continued in use to the mid-19th century. The entire study area lay within the Heslington Conservation Area, which was focussed on Heslington Hall and provided a critical visual setting for both the hall and parish church. [Au(adp)]

COMBINED SEWER OVERFLOW PROGRAMME PRELIMINARY WORKS, CITY OF YORK***Combined Sewer Overflow Programme Preliminary Works, North Yorkshire. Archaeological Desk-Top Appraisals***

Tabor, J Barnard Castle : Northern Archaeological Associates, 2003, 101pp, refs

Work undertaken by: Northern Archaeological Associates

A rapid desk based assessment of 95 sites within the City of York, associated with various combined sewer overflow schemes. 42 of the sites had no recorded sites within 250m, 53 had sites within 250m, 6 of these were accorded a 'no impact upon archaeological remains' tag. 19 had a low to moderate potential and 28 had a high potential to encounter archaeological materials. HEWORTH GREEN, YORK***Heworth Breen York. Archaeological Watching Brief. Summary Desk Based Assessment and Written Scheme of Investigation***

Johnson, P G Barnard Castle : Northern Archaeological Associates, 2003, 9pp, refs

Work undertaken by: Northern Archaeological Associates

A summary desk-based assessment, attached to a written scheme of investigation, identified the nearby archaeological and historical sites. These included a Roman road and cemetery, an Anglo-Saxon cemetery, a possible medieval hospital and a post-medieval public house. [Au(adp)]

MINSTER ENGINEERING WORKS, DENNISON STREET

Minster Engineering Works, Dennison Street, York

Map Archaeological Consultancy Ltd. Malton : MAP Archaeological Consultancy Ltd., 2003,
33pp, colour pls, figs, refs

Work undertaken by: MAP Archaeological Consultancy Ltd.

The proposed development site lied to the east of the Roman road from the north-east gate to the legionary fortress to Derwentio (Malton). The site, developed for light industrial use in the late 19th century, was agricultural land prior to this date. [Au(abr)]
