**LAND NEAR TO HEMERDEN PIT, CROWNHILL DOWN, SPARKWELL***Archaeological Survey, Evaluation and Recording of a Trial Extraction Site at Hemerdon Pit, Crownhill Down, Sparkwell, Devon*

Dyer, M Exeter : Exeter Archaeology, 2003, 12pp, figs, refs

*Work undertaken by:* Exeter Archaeology

This evaluation identified that all the earthworks within the study area formed part of a phased china clay extraction area dated to the 19th and 20th centuries. No earlier archaeological deposits were revealed. [Au(adp)]

*Archaeological periods represented:* PM, PR, UD

**LAND TO THE NORTH OF THE FORMER DIGBY HOSPITAL, EXETER*****Archaeological Evaluation of a Proposed Development Site off Rydon Lane, Exeter***

Passmore, A Exeter : Exeter Archaeology, 2003, 6pp, figs, refs

*Work undertaken by:* Exeter Archaeology

The main objective of this evaluation was to identify anomalies previously recorded by a geophysical survey. The feature was identified as a large pit containing modern debris and was possibly associated with the nearby hospital, or the WWII camp to the north-west. [AIP]

*Archaeological periods represented:* MD, MO, UD

**LAND TO THE REAR OF THE ROYAL ALBERT MEMORIAL MUSEUM  
BRADNINCH PLACE, EXETER*****Archaeological Assessment and Field Evaluation of Proposed Redevelopment to the rear of the  
Royal Albert Memorial Museum Bradninch Place, Exeter***

Exeter Archaeology Exeter : Exeter Archaeology, 2003, 14pp, figs, refs

*Work undertaken by:* Exeter Archaeology

The evaluation revealed a Roman rampart associated with the bordering contemporary city wall, Norman ditches and ramparts forming the outer bailey of the bordering Norman Castle and post-medieval pits. Finds mainly included residual Roman and Greek pottery, discarded by the nearby museum. [AIP]

*Archaeological periods represented:* MD, MO, PM, RO, UD

TQ9 5EG**THE MANSION HOUSE, TOTNES*****The Mansion House, Fore Street, Totnes***

Humphreys, C Barnstaple : South-West Archaeology, 2004, 38pp, colour pls, figs, tabs, refs

*Work undertaken by:* South-West Archaeology

The positioning of the trenches were constrained by access and service locations. No definite evidence for structures was encountered, though plough marks were recorded, apparently demonstrating the transition between Saxo-Norman agricultural land-use to the medieval planned urbanisation of the site. A full range of ceramic sherds from the 11th-20th centuries were recovered, and the possibility that the site might have been terraced, into the west to east slope, was inferred from the extremely variable depth at which natural subsoil or bedrock was encountered. [Au(abr)]
