Carlyle, S Northampton : Northamptonshire Archaeology, 2003, 32pp, colour pls, figs, tabs, refs

*Work undertaken by:* Northamptonshire Archaeology

Trial trenches were excavated on the proposed development site. A stone wall, a hearth, a bread oven, a kiln and a series of deposits were identified dating to the 12th-13th Centuries. These features were sealed by a layer of soil dating to the late medieval/post-medieval period. The remains of a 17th century house, a pit and 19th century buildings were also identified. [Au(abr)]

Thorne, A &amp; Yates, A Northampton : Northamptonshire Archaeology, 2003, 23pp, figs, tabs, refs

*Work undertaken by:* Northamptonshire Archaeology

Trial trenches were excavated on the site. Four shallow amorphous medieval cut features of uncertain purpose were encountered, which had been sealed by medieval and post-medieval garden soil. Post-medieval demolished structures and a brick wall on the line of a medieval tenement boundary were also identified. [Au(abr)]

*Archaeological periods represented:* MD, PM

Walsh, T &amp; Maull, A Northampton : Northamptonshire Archaeology, 2003, 75pp, figs, tabs, refs

*Work undertaken by:* Northamptonshire Archaeology

Trial trenches and a magnetometer survey was carried out over the area of the proposed quarry extension. Four, possibly five, Middle Iron Age settlement enclosures were identified with associated field system. A pit alignment of Late Bronze Age/Early Iron Age date was encountered. A Roman settlement was also identified, with at least two phases of activity. A later field system, of Roman date was also encountered. [Au(abr)]
