Savage, S & Palmer-Brown, C Lincoln : Pre-Construct Archaeology (Lincoln), 2003, 25pp, colour pls, figs, refs

Work undertaken by: Pre-Construct Archaeology (Lincoln)

The evaluation identified archaeological remains of Romano-British and medieval date with limited evidence of activity in the post-medieval era (residual worked flints were recovered, suggesting that prehistoric occupation of the area was also a possibility). [Au(abr)]

Work undertaken by: Lindsey Archaeological Services

Several features dating from the late 19th and early 20th centuries were observed in trenches two and three. These consisted mainly of refuse pits connected to the terraced housing and builder's yard that previously occupied the site. No further archaeological features were observed. [Au(abr)]
