Taverner, N Clun : Marches Archaeology, 2003, 28pp, figs, tabs, refs

Work undertaken by: Marches Archaeology

An archaeological watching brief was carried out on the site. Previous development on the site had removed much of the archaeology on the site. The earliest feature was cut by one of two early post-medieval wells and a pit, that may have been associated with the last standing building on the site. [Au(abr)]
