COALPORT CARPARK***Archaeological Watching Brief On Coalport Carpark, Shropshire***

White, S Ironbridge : Ironbridge Archaeology, 2003, 44pp, colour pls, figs, tabs, refs

Work undertaken by: Ironbridge Archaeology

An archaeological watching brief was carried out on the site. Remains of the Coalport canal were recorded, with evidence of repair and use. Ash dump deposits were identified, from the kilns of the nearby chinaworks. A row of settling tanks were also recorded. [Au(abr)]

White, S Ironbridge : Ironbridge Archaeology, 2003, 128pp, pls, figs, tabs, refs

Work undertaken by: Ironbridge Archaeology

An archaeological watching brief was carried out on the removal of contaminated soil, drainage and ground reduction. Health and safety reduced the monitoring effectiveness. A brick floor, canal lining, a canal wall, steps and a brick wall were recorded in the contaminated land trenches. Piers and a wall were identified during ground reduction and structures were identified during excavation for drainage. China pottery was recovered across the site. [Au(abr)]
