Napthan, M Worcester : Mike Napthan Archaeology, 2003, 85pp, colour pls, figs, tabs, refs
Work undertaken by: Mike Napthan Archaeology

Watching briefs, excavation and building recording was carried out on the site of the former castle. The structural remains of the Kings House and precinct wall dating to the 12th century were identified. Remains were also identified of the late medieval/post-medieval gaol. Much of the castle site had been robbed out but traces of burnt floors and rubbish disposal were identified. Building recording was carried out on Castle House, which contained features of medieval and post-medieval but was mostly modern in date. [Au(abr)]

Martin, H Birmingham : Birmingham Archaeology, 2003, 32pp, colour pls, figs, tabs, refs
Work undertaken by: Birmingham Archaeology

An archaeological excavation was carried out on the site and a sequence of occupation activity was identified dating from the medieval period onwards. Phase 1 of the site consisted of burgage boundary ditches, a cobbled surface and a back plot pit. Phase 2 of the site consisted of early post-medieval boundary ditches and agricultural activity. Phase 3 of the site dated to the 17th century and consisted of a large V shaped ditch and two large ditches that dated to the Civil War period. Phase 4 of the site dated to the 19th and 19th century and consisted of a structure on the western half of the site. [Au(abr)]
