A12 WITHAM LINK ROAD (SOUTHERN ROUTE)***A12 Witham Link Road (Southern Route), Essex, Geophysical Surveys***

Hale, D Durham : University of Durham, Archaeological Services, 2003, 26pp, figs, refs

Work undertaken by: University of Durham, Archaeological Services

The survey produced evidence for a number of features of probable archaeological origin, including a possible double-ditched trackway and former field or paddock boundaries. Other features included substantial remains (presumed to be relatively recent), a service pipe and possible former stream courses. [Au(adp)]

COLEMANS FARM. WITHAM***Colemans Farm. Witham Essex. Geophysical Survey***

Saunders, H & Clarke, V Braintree : Essex County Council Field Archaeology Unit, 2004, 20pp, figs, tabs, refs

Work undertaken by: Essex County Council Field Archaeology Unit

The survey identified a possible large enclosure with an annex, some prominent linear features and a possible small kiln. When combined with results from a previous watching brief, the dates for the features would seem to range from the late Iron Age to the Roman period. [Au(adp)]

PEEK'S CORNER, EARLS COLNE***Peek's Corner, Earls Colne, Essex. Geophysical Survey Report***

Saunders, H & Clarke, V Braintree : Essex County Council Field Archaeology Unit, 2004, 23pp, figs, tabs, refs

Work undertaken by: Essex County Council Field Archaeology Unit

The survey identified a number of features, including a rubble spread and a large ring ditch. Large areas of the site that were surveyed showed very little activity; the results of the survey along the western boundary of the field were affected by the presence of a metal fence. [Au]

Johnson, A E Noke : Oxford Archaeotechnics, 2003, 26pp, figs, tabs, refs

Work undertaken by: Oxford Archaeotechnics

The survey identified a number of weak linear anomalies, that could have included stone walling or other structural remains, and possibly a track or street. Several possible pit forms, ranging from 2m and 5m in diameter were also located. In addition, a clearly defined zone of rubble and other magnetic debris was identified extending between 20 and 40m behind the Town Wall. [Au(adp)]
