THE TOWERS HOSPITAL

A Report for University of Leicester Archaeological Services on a Geophysical Survey Carried Out for the Towers Hospital, Humberstone, Leicester

Mercer, E Upton Upon Severn : Stratascan, 2003, 17pp, figs, refs

Work undertaken by: Stratascan

A survey identified a ridge and furrow field system, a series of strong linear features which contained magnetic material and some possible pits which all may have been archaeological in nature. [Au(adp)]

Archaeological periods represented: PM, UD
