LAND AT DIPPING, CHURCH HOLLOW, PURFLEET

Land at Dipping, Church Hollow, Purfleet, Essex. Archaeological Desk-Based Assessment

Hawkins, D London : CgMs, 2002, 33pp, colour pls, figs, refs

Work undertaken by: CgMs

Any archaeological remains predating c.1750 within the area of the study site, were thought to have been destroyed by chalk quarrying. The archaeology potential for the site was thought to be restricted to three Grade II Listed Buildings. [Au(abr)]

LAND AT HIGH HOUSE, LONDON ROAD, PURFLEET

Land at High House, London Road, Purfleet, Essex. Archaeological Desk-Based Assessment

Hawkins, D London : CgMs, 2002, 40pp, colour pls, figs, tabs, refs

Work undertaken by: CgMs

The site was assessed in advance of a residential development. The potential for the recovery of Palaeolithic remains was thought to be good, although material derived from this period was not expected to have been preserved in situ. Bronze Age remains were also predicted to be revealed, as were Roman features. In the immediate vicinity of the house, medieval and post-medieval archaeological remains would be expected. An archaeological evaluation was recommended. [Au(adp)]

LITTLE BRICKKILN WOODS, BELHUS PARK

Little Brickkiln Woods, Belhus Park. Archaeological Desk-Top & Site Assessment

Heppel, E Braintree : Essex County Council Field Archaeology Unit, 2002, 32pp, figs, tabs, refs

Work undertaken by: Essex County Council Field Archaeology Unit

The site contained upstanding archaeological remains, a mound with a circular brick structure on top. There were also a number of water filled clay pits in the area, thought to be associated with the post-medieval brickworks. It was suggested that further archaeological studies, particularly geophysical surveys, should be carried out. [Au(adp)]
