AMBER PARK

Amber Park, South Normanton, Derbyshire

Challis, K Nottingham : Trent & Peak Archaeological Unit, 2002, 42pp, figs, tabs

Work undertaken by: Trent & Peak Archaeological Unit

An archaeological assessment was carried out on the proposed development site. Three areas of archaeological interest were identified, including 17th to 19th century field boundaries, the line of the 19th century tramway and the former Berristow colliery. Structures from the colliery were present in the south-western area of the colliery and although now not visible may still survive. The development would impact on archaeology in its direct area and a mitigation strategy was recommended. [Au(abr)]

LODGE HOUSE OPENCAST

Assessment of Lodge House Proposed Opencast Scheme, Smalley and Shipley

May, R & O'Neill, R Sheffield : ARCUS, 2002, 23pp, colour pls, figs, tabs, refs

Work undertaken by: ARCUS

An archaeological assessment was carried out on the proposed opencast mine site. Coal extraction was found to have taken place within the proposed development area since the 13th century. In the area where more recent mining has not been undertaken, evidence of early mining activities may be present. [Au(abr)] *SMR primary record number:* 552

THE OLD FEATHERS

The Old Feathers, Lordsmill Street, Chesterfield

East Midlands Region

Arrowsmith, P Manchester : University of Manchester Archaeological Unit, 2002, 34pp, figs, tabs, refs

Work undertaken by: University of Manchester Archaeological Unit

An assessment was carried out on the proposed development site. The Old Feathers was identified as being built in 1916. The site was identified as being situated at the rear of 14th century street frontages and as having potential for medieval back plot archaeology. The site may also be located within the Roman settlement. [Au(abr)]

DEVONSHIRE STREET, CHESTERFIELD

Devonshire Street, Chesterfield

Sumpter, T Retford : Tony Sumpter Archaeological Consultancy, 2002, 13pp, figs, tabs, refs

Work undertaken by: Tony Sumpter Archaeological Consultancy

An archaeological assessment was carried out on the proposed development site. Although the site was on the periphery of the town and was identified as having no known archaeology, the area may have had medieval and Roman occupation. [Au(abr)] *SMR primary record number:* 555
