13 BIG GREEN, WARMINGTON*13 Big Green, Warmington*

Oakey, N : Niall Oakey, 2002, 19pp, figs, refs

Work undertaken by: Niall Oakley

An archaeological assessment was carried out on the proposed development site. Although the area around the site was identified as having extensive archaeology, the site has no known archaeology apart from a post-medieval track and pond. [Au(abr)]

BROAD STREET/ST ANDREW'S STREET*Broad Street/St Andrew's Street, Northampton*

Gardner, R : Northampton : Northamptonshire Archaeology, 2002, 27pp, figs, tabs, refs

Work undertaken by: Northamptonshire Archaeology

An archaeological assessment was carried out on the proposed development area. No Roman or prehistoric archaeology is expected on the site. The site is situated outside the Saxon town defences but within the medieval town defences and a small amount of occupation is expected on the site for this period. Cartographic evidence points to the site being in occupation since the 17th century. [Au(abr)]

PRINCESS MARINA HOSPITAL, NORTHAMPTON

Princess Marina Hospital, Northampton. Archaeological Desk-Based Assessment

Morton, R Cirencester : Cotswold Archaeological Trust, 2002, 32pp, colour pls, figs, tabs, refs

Work undertaken by: Cotswold Archaeological Trust

Archaeological investigation in the vicinity of the site had identified distinct areas of occupation dating back to prehistory, although no evidence at the site itself had yet been found. It was thought that there was potential for archaeology on the site, although landscaping associated with the construction of the hospital may have disturbed remains to some extent. [Au(adp)]
