BRIDGES WHARF, BATTERSEA*Archaeological Desk-Based Assessment: Bridges Wharf, Battersea*

Meager, R London : CgMs, 2002, 39pp, pls, figs, refs

Work undertaken by: CgMs

The site can be shown to have low potential for the Palaeolithic, Mesolithic and the Neolithic, moderate potential for the Bronze Age, low potential for the Iron Age, Roman, Saxon and early medieval periods, low for the medieval with the possible exception of a wharf, and of limited potential for the post-medieval period. [Au(adp)] *SMR primary record number: 32/353*

HOWIE STREET, BATTERSEA*Howie Street, Battersea, London Borough of Wandsworth. Archaeological Desk-Based Assessment*

Hemley, S Twickenham : AOC Archaeology Group, 2002, 38pp, figs, refs

Work undertaken by: AOC Archaeology Group

Historical and archaeological background and nearby geotechnical results indicate a favourable position for prehistoric activity. There is no substantial evidence for Roman settlement in this area. Medieval, post-medieval, and Saxon occupation is known from documentary sources and has been confirmed by excavation nearby. It is recommended in the first instance that any necessary further archaeological investigation be mitigated for following the results of the archaeological monitoring of geotechnical site investigations. Robin Hood Hotel, Kingston Vale, London Borough of Kingston-Upon-Thames. An Archaeological Desk-Based Assessment

Hardy, L-M Reading : Thames Valley Archaeological Services, 2002, 24pp, colour pls, figs, tabs, refs

Work undertaken by: Thames Valley Archaeological Services

Cartographic and historical records indicated that the site was relatively undeveloped until the 19th century. The majority of the site had remained undeveloped. Although this may have indicated that any deposits would be well preserved, the site was thought to have a low potential for archaeological remains. [Au(abr)]
