ORIENTAL CITY SITE, GROVE PARK

Oriental City Site, Grove Park, Colindale, London NW9: An Archaeological Desk-Based Assessment

Wotherspoon, M Hertford : Hertfordshire Archaeological Trust, 2002, 26pp, pls, figs, tabs, refs

Work undertaken by: Hertfordshire Archaeological Trust

Little known archaeological information is available for the area, though the site lies to the west of the line of Roman Watling Street and to the north of another possible road recorded on the GLSMR. There is a low potential for the discovery of archaeological remains of Roman and mediaeval date. [Au(abr)]
