LAND ADJACENT TO 1 IRISH STREET, MARYPORT

An Archaeological Desk-Based Assessment of Land Adjacent to 1 Irish Street, Maryport, Cumbria

Jones, C Nenthead : North Pennines Heritage Trust, 2002, 25pp, colour pls, figs, tabs, refs

Work undertaken by: North Pennines Heritage Trust

Maryport is rich in Roman and Medieval finds. Also, site contains the remains of a late nineteenth century foundry partly visible through the intermittent grass cover. Therefore, it was suggested that there is a medium level of survival of archaeological remains for all periods and that any groundwork should be archaeologically monitored. [AIP]

LAND AT 39 MARKET PLACE, COCKERMOUTH

An Archaeological Desk-Based Assessment of Land at 39 Market Place, Cockermonth, Cumbria

Jones, C Nenthead : North Pennines Heritage Trust, 2002, 20pp, pls, figs, refs

Work undertaken by: North Pennines Heritage Trust

The available evidence suggests a very strong probability that archaeological remains will be present within the development site. The map evidence shows the likely presence of foundation structures and cellars. [Au(abr)]

ST JOHN'S PRECINCT, WORKINGTON

St John's Precinct, Workington, Cumbria

Elsworth, D Lancaster : Oxford Archaeology North, 2002, 40pp, pls, figs, refs

Work undertaken by: Oxford Archaeology North

North West Region

The assessment did not identify a large number of potential archaeological sites within the study area; indeed only two are recorded in the SMR. All of the sites identified are post-medieval in date, often very late, and mostly consist of public and functional buildings such as churches, a school, a drill hall and so forth. No earlier sites were identified, although remains of almost all periods have been discovered in wider environs. [Au(abr)] *SMR primary record number:* 3339

CROFT HOUSE, CUMBRIA

An Archaeological Desk-Based Assessment of Land at Croft House, Brampton, Cumbria

Jones, C Alston : North Pennines Heritage Trust, 2002, 23pp, colour pls, pls, figs, tabs, refs

Work undertaken by: North Pennines Heritage Trust

The proximity of the site to former medieval tenement plots could indicate a potential for archaeological survival of medieval remains. [Au(abr)]

HIGHGROVE DAIRY, HARRABY GREEN, CARLISLE

An Archaeological Desk-Bases Assessment of Land at Highgrove Dairy, Harraby Green, Carlisle, Cumbria

Jones, C Alston : North Pennines Heritage Trust, 2002, 21pp, colour pls, pls, figs, tabs, refs

Work undertaken by: North Pennines Heritage Trust

The available evidence suggests that there is a very strong probability that archaeological remains will be present on the site of the proposed development, given the high incidence of the industrial activity and the existence of significant prehistoric and Roman settlement within the broader region. [Au(abr)]

FORMER WORKHOUSE SITE, LOW ROAD, WHITEHAVEN

A Desk-Based Assessment & Evaluation at the Former Workhouse Site, Low Road, Whitehaven, Cumbria

Morrison, J Edinburgh : Headland Archaeology Ltd, 2002, 37pp, colour pls, figs, tabs, refs

Work undertaken by: Headland Archaeology Ltd

The evaluation involved the machine excavation of sixteen trenches. No archaeological features or finds were found pre-dating the mid-19th century workhouse. [Au(abr)]

ROSE COTTAGE, NEWBIGGIN*Rose Cottage, Newbiggin (near Stainton), Cumbria. Interim report on a desk-based assessment and earthwork survey.*

Irving, J Edinburgh : Headland Archaeology Ltd, 2002, 15pp, figs, tabs, refs

Work undertaken by: Headland Archaeology Ltd

Earthworks within the site appear to represent a row of house platforms backing onto a back lane, with ridge and furrow cultivation marks to the rear, while complex earthwork features in the centre of the site probably represent the remains of a building. The whole site has significant archaeological potential. [Au(adp)]

THISTLEWOOD FARM, CASTLE SOWERBY*Thistlewood Farm: Archaeological Assessment*

The Archaeological Practice Newcastle upon Tyne : The Archaeological Practice, 2002, 22pp, colour pls, figs, refs

Work undertaken by: The Archaeological Practice

The report concludes that archaeologically, although there are likely to be prehistoric remains within the general area of Thistlewood, there is no evidence for such remains within or in the close vicinity of the proposed development area. The medieval remains from any settlement associated with the Tower may lie in the area and that the archaeological context and spread of the human remains noted on the First Edition Ordnance Survey next to Thistlewood Tower are uncertain. [Au(abr)]

FARFIELD PIPELINE, SEDBERGH*Farfield Pipeline, Sedbergh, Cumbria*

Elsworth, D Lancaster : Oxford Archaeology North, 2002, 32pp, colour pls, pls, figs, refs

Work undertaken by: Oxford Archaeology North

North West Region

The desk-top assessment identified 30 sites of archaeological interest within the study area. A number of these sites are directly within the corridor of the pipeline. As a result of the assessment it was recommended that a permanent presence watching brief be maintained during the disturbance of all non-naturally derived soil horizons or that targeted evaluations be carried out at those points where recognised archaeological features would be disturbed. WILSON HOUSE, LINDALE

Wilson House, Lindale, Cumbria: Archaeological Desk-Based Assessment

Cranstone, D Gateshead : Cranstone Consultants, 2002, 31pp, pls, figs, refs

Work undertaken by: Cranstone Consultants

Wilson House in its present form consists of an extensive complex of farm buildings and is of potential archaeological interest due to its claimed association with the development of the iron industry in the 18th century. A scheme of restoration of the southern area is therefore seen as actively desirable archaeologically. This should be preceded by a full site survey and building recording. [Au(adp)]
