AYLESBURY COLLEGE, OXFORD ROAD CAMPUS, AYLESBURY*Aylesbury College, Oxford Road Campus, Aylesbury, Buckinghamshire. An Archaeological Assessment*

Pontin, L Twickenham : AOC Archaeology Group, 2002, 26pp, figs, refs

Work undertaken by: AOC Archaeology Group

The proposed scheme of development will involve the redevelopment of the Oxford Campus for student accommodation. The site may present evidence for Roman and prehistoric activity. It was recommended that an archaeological Watching Brief be carried out upon any geotechnical investigations conducted to determine the presence/absence of any archaeological remains and also to determine the extent of truncation caused by the current college buildings. Ivens, R Potterspury : Ivens, R, 2002, 48pp, figs, tabs

Work undertaken by: Ivens, R

An archaeological assessment was carried out on the proposed development site. Part of a homestead or similar settlement dating to the medieval period may have occupied the site. This settlement was short-lived and the land was identified as being mostly used for agricultural purposes. By the late 18th century the land again reverted to homestead, although the assessment identified that the buildings were located to the west of the site. [Au(abr)]

MANOR FARM, 12 MAIN STREET*Manor Farm, 12 Main Street, Mursley*

Fell, D & Zeepvat, B Milton Keynes : Archaeological Services & Consultancy Ltd, 2002, 27pp, figs, tabs, refs

Work undertaken by: Archaeological Services & Consultancy Ltd

An archaeological assessment was carried out on the proposed development site. No archaeology was identified on the site but is close to a medieval moated site and is close to the historic core of the village. The assessment concluded that the site has potential for medieval and possibly Saxon archaeology. [Au(abr)]

DENHAM PALACE GARDENS*Denham Palace Gardens, Denham. Archaeological Desk-Based Assessment*

Wright, J, Fielding, S & Falcini, P Salisbury : Wessex Archaeology, 2002, 19pp, colour pls, figs, tabs, refs

Work undertaken by: Wessex Archaeology

The assessment was carried out in anticipation of planning proposals. There appeared to be potential for the disturbance of archaeological remains, particularly relating to building foundations. A geophysical survey was recommended to attempt to trace the historic gardens. [Au(adp)]

M40/A404 JUNCTION, HIGH WYCOMBE*M40/A404 Junction, High Wycombe, Buckinghamshire. Stage 1 Cultural Heritage Assessment*

Buckley, A K Oxford : Oxford Archaeology, 2002, 14pp, figs, tabs, refs

Work undertaken by: Oxford Archaeology

The assessment revealed that while there were a range of cultural heritage features, there was a limited archaeological potential within the study area. However, this was thought to be due to the lack of concentrated archaeological fieldwork, which has made the assessment of impact on archaeological features difficult. [Au(abr)]
