48-50 HIGH STREET***48-50 High Street, Uttoxeter***

Bain, K Birmingham : Birmingham University Field Archaeology Unit, 2002, 29pp, colour pls, figs, tabs

Work undertaken by: Birmingham University Field Archaeology Unit

The assessment of the development site found that the site is situated in the medieval settlement of Uttoxeter and has potential for archaeology. The building on the site was found to date earlier than its 19th century street frontage, with its origins in a 17th century timber framed building. [Au(abr)] *SMR primary record number:* 50425

CATTLE MARKET***The Cattle Market Uttoxeter***

Hemley, S Twickenham : AOC Archaeology Group, 2002, 31pp, figs

Work undertaken by: AOC Archaeology Group

The assessment found that the site lies outside the medieval settlement but has potential for late medieval and post-medieval archaeology. Cartographic sources show that in the 17th century the site was being used as a sawmill and as a cattle market. [Au(abr)]

FORMER COUNCIL OFFICES UTTOXETER***Former Council Offices, High Street, Uttoxeter***

Bain, K Birmingham : Birmingham University Field Archaeology Unit, 2002, 20pp, colour pls, figs

Work undertaken by: Birmingham University Field Archaeology Unit

The assessment of the site found that although all the present buildings on the site are modern, the site is located within medieval Uttoxeter and has a potential for below ground archaeology. [Au(abr)]

EASTHILL FARM***Easthill Farm, Fradley Park***

Coates, G & Hancox, E Birmingham : Birmingham University Field Archaeology Unit, 2002, 21pp, colour pls, figs, tabs

Work undertaken by: Birmingham University Field Archaeology Unit

The desk-based assessment of the site found, that despite the site's proximity to substantial prehistoric settlements and the former Roman Road, there was no evidence of archaeological remains on the site.

West Midlands Region

As the land had been used as farmland for centuries if any archaeology is present, it would be well preserved. [Au(abr)] *SMR primary record number: 50212*

HINTS & HOPWAS QUARRIES NEAR TAMWORTH***Proposed Integrated Working & Restoration Scheme for the Combined Working of Hints & Hopwas Quarries, Near Tamworth, Staffordshire***

SLR Consulting Limited Nottingham : SLR Consulting Limited, 2002, 188pp, figs, tabs refs

Work undertaken by: SLR Consulting Limited

The assessments show that there is little potential for unknown features to be present within the site. However, the presence of crop mark anomalies, coupled with the proximity of other crop marks and the Roman Road. Accordingly, the applicant would appoint an appropriately qualified archaeologist to oversee the soil stripping operations as part of a watching brief agreed beforehand with the County Archaeologist. Hayfield, C Shustoke : Colin Hayfield Archaeological Consultancy, 2002, 36pp, colour pls, figs, tabs

Work undertaken by: Colin Hayfield Archaeological Consultancy

The assessment identified the proposed development area as containing medieval burgrave plots. The assessment concluded that any development would impact these and any burgrave boundaries and associated rubbish pits. No other archaeology was identified within the area. [Au(abr)] *SMR primary record number: 50328/50330*

LITTLE TOTMONSLOW***Little Totmonslow Farm, Tean***

Conway, M Birmingham : Birmingham University Field Archaeology Unit, 2002, 20pp, colour pls, figs, tabs

Work undertaken by: Birmingham University Field Archaeology Unit

The assessment of the proposed development site found no known archaeology within the bounds of the development area. Neolithic, Bronze Age, Roman, medieval and post-medieval activity had though been recorded close to the site, so archaeology may be present in the development area.
