

# Sub-model 3. Suspension and Deposit Feeding Infauna

1. Regional to Global Drivers

Legend

Magnitude of Influence  
 — Small  
 — Medium  
 — Large

Driving Influence  
 — Positive Interaction  
 — Negative Interaction  
 - - - Feedback

Driver Relevance to Infralitoral/Circalitoral

Low Relevance
Infralitoral
High Relevance
Infralitoral
Low Relevance
Circalitoral
High Relevance
Circalitoral

Degree of Natural Variability

- Low natural variability
- Moderate natural variability
- High natural variability

Version 1.0  
Please see accompanying report for model restrictions and limitations
