future Russian Roulette: CSR and the

The Trouble with Fossil Fuels. CSF and the

3

2013, in the period 2012-2013, the Russian roulette continued to play in the CSR game.
The Committee on Food, Agriculture, and Transportation (hereafter referred to as the Committee) has been charged with the responsibility of reviewing and commenting on the proposed regulations relating to the production and sale of commodities.

The Committee has received numerous letters and submissions from various organizations and individuals expressing their views on the proposed regulations. These submissions have been carefully reviewed by the Committee, and a number of recommendations have been made in response to these concerns.

The Committee has also been given the responsibility of preparing a report for submission to the appropriate committee of the House of Representatives. This report will summarize the findings of the Committee and provide recommendations for action.

The Committee believes that the proposed regulations will have a significant impact on the agricultural sector and will require careful consideration. The Committee has therefore decided to hold public hearings to allow interested parties to present their views on the proposed regulations.

The Committee encourages all interested parties to participate in the public hearing process and to submit written comments on the proposed regulations. The Committee will consider all comments received in preparing its final report.

The Committee will hold public hearings on the proposed regulations on [date]. Interested parties are encouraged to attend these hearings to present their views on the proposed regulations.

In addition, the Committee invites interested parties to submit written comments on the proposed regulations by [date]. Written comments should be submitted to the Committee at [address]. The Committee will consider all comments received in preparing its final report.

The Committee looks forward to hearing from all interested parties and to receiving their comments on the proposed regulations.

[End of Communication]
Introduction

The image-building of a country is a key aspect of nation-building and the construction of a powerful and influential country in the global arena. Countries with strong and positive images are able to attract investments, tourists, and skilled labor, which in turn contributes to economic growth and stability. A positive image can also enhance a country's soft power, enabling it to influence and shape events and decisions in the international community.

Towards the Legitimacy of Deliberate Image-Building of a Country
