Boulter, S Bury St Edmunds : Suffolk County Council Archaeological Service, 2002, 45pp, figs, tabs, refs

Work undertaken by: Suffolk County Council Archaeological Service

Trial trenching was carried out on the site. The earliest deposits were residual and unstratified Mesolithic finds. Neolithic finds and discrete features were also identified and may relate to a possible Long Barrow on the site. A Bronze Age ring ditch, previously identified as a crop mark was also uncovered. A Roman track way flanked by two ditches containing occupation deposits was identified, along with two sunken Saxon houses. Post-medieval field boundaries and small quarry pits were identified across the site. [Au(abr)]
