*An Archaeological Evaluation at Sir John Atkins Building, Campden Hill, Royal Borough of Kensington and Chelsea, London W8*

Bradley, T Brockley : Pre-Construct Archaeology Ltd, 2002, 40pp, figs, refs

*Work undertaken by:* Pre-Construct Archaeology Ltd

Eight archaeological test pits were machine excavated around the perimeter of the site. Identified were an 18th century brick lined pit, pits with burnt flint and pottery dating to the Late Bronze Age/Iron Age. These pits were sealed by a probable plough soil containing burnt flint and pottery dating to the Iron Age. [Au(abr)] *SMR primary record number:* 20/049

*Archaeological periods represented:* IA, LBA, PM
