**HOOLE PARK AND RIDE***Hoole Park and Ride, Hoole*

Hayes, L Liverpool : National Museums and Galleries on Merseyside, 2002, 9pp, figs

*Work undertaken by:* National Museums and Galleries on Merseyside

A fieldwalking survey was carried out on the proposed development area. Roman, medieval and post-medieval finds were found scattered across the site, possibly associated with the manuring of the site. In one area of the site undiagnostic building material was recovered, this material may relate to a small Roman settlement. [Au(abr)]

**LAND AT CITY ROAD***Land at City Road, Chester*

McPhilips, S Lancaster : Oxford Archaeology North, 2002, 54pp, colour pls, figs, tabs

*Work undertaken by:* Oxford Archaeology North

An archaeological evaluation was carried out on the site. Roman residual finds were recovered, indicating a nearby presence. Medieval walls and rubbish pits were identified, showing the presence of a building. Post-medieval tanning pits and possible kiln/furnace debris were identified. 18th-19th century structural remains of cottages were also identified. [Au(abr)]

**LINENHALL STABLES*****Report on an Archaeological Evaluation at Linenhall stables, Stanley Street, Chester***

Garner, D Chester : Gifford and Partners, 2002, 56pp, figs, tabs

*Work undertaken by:* Gifford and Partners

Seven evaluation trenches were excavated on the site. The remains of the 1785 Linen Hall were identified. Post-medieval cultivation deposits were also identified below which were demolition deposits and structural remains of the medieval friary. Roman activity on the site was limited to a low level spread of finds, possibly associated with cultivation deposits. [Au(abr)]
