CALPRINA WORKS, CARRBROOK

Calprina Works, Carrbrooks, Greater Manchester. Archaeological Evaluation Interim Statement

Oxford Archaeology North Lancaster : Oxford Archaeology North, 2002, 8pp, colour pls, figs

Work undertaken by: Oxford Archaeology North

Four trenches were excavated and were targeted on buildings shown on the 1840 Tithe Map of the site. Significant archaeological deposits were observed within all the trenches, and the quality of their survival suggests that further deposits probably survived across the majority of the site. [Au(abr)] *SMR primary record number:* 3228

Archaeological periods represented: PM
