A650 BINGLEY RELIEF ROAD

A650 Bingley Relief Road, West Yorkshire. Site 49 (Earhworks Near the Bankfield Hotel) Archaeological Mitigation works

Bell, C Barnard Castle : Northern Archaeological Associates, 2002, 10pp, colour pls, figs, refs
Work undertaken by: Northern Archaeological Associates

A total of four evaluation trenches were excavated on the site of a bank and lynchet. A single phase of construction for the lynchet and a subsequent period of erosion for the bank were identified. A trackway was also excavated and was found to have no artificial surface or rut marks and may have been deliberately created as a ledge that had been cut into the natural slope of the hillside. GRIMES DYKE, WHINMOOR, LEEDS

Grimes Dyke, Whinmoor, Leeds, West Yorkshire. Archaeological Trial Trenching Report

Parry, J & Middleton, P Barnard Castle : Northern Archaeological Associates, 2002, 10pp, figs, tabs, refs

Work undertaken by: Northern Archaeological Associates

Yorkshire & Humberside Region

A trial trenching exercise was carried out in advance of a new park-and-ride service. Three trenches were excavated, of which one exposed a rock-cut holloway with the remains of cart tracks in the bottom. Finds indicated a post-medieval date. The true course of Grimes Dyke was thought to lie outside the development area. [Au(abr)]

METHLEY QUARRY***Methley Quarry, Methley, West Yorkshire. Archaeological Evaluation***

Archaeological Services WYAS Morley : Archaeological Services WYAS, 2003, 31pp, figs, tabs, refs

Work undertaken by: Archaeological Services WYAS

An evaluation in advance of a quarry extension revealed a flint scatter, possibly indicating prehistoric activity. Deeper linear boundaries of former agricultural regimes had been reliably represented by geophysical survey data, while shallower features were thought to only be detectable through full excavation. Artefact counts were low and environmental potential poor. [Au(abr)]

PEEL BUSINESS PARK, CALDER PARK, DURKAR

Peel Business Park, Calder Park Durkar, Wakefield. Archaeological Evaluation

MAP Archaeological Consultancy Ltd Malton : MAP Archaeological Consultancy Ltd, 2002, 22pp, colour pls, figs, refs

Work undertaken by: MAP Archaeological Consultancy Ltd

An evaluation prior to a proposed development located a furrow, two tree bowls, two linear ditches, possible ditch terminals, a gully, three post holes, three pits and four field drains that dated to the Roman and prehistoric periods. However, the poor finds assemblage made dating problematic. The exact dates of the features were difficult to understand. [Au(abr)]
