PIDDINGTON

Iron Age and Roman Piddington. Interim Report and Phase Descriptions

Freindship-Taylor, R.M and D.E. Hassleton : The Upper Nene Archaeological Society, 2004, pp13, figs, pls, refs.

Work undertaken by: The Upper Nene Archaeological Society

The excavations excavated at Piddington provided evidence of seven occupational phases. Artefactual evidence from the Mesolithic through to the Bronze Age period were recovered. The earliest structure identified was dated to phase 1: c.5 BC. Further structural evidence was identified on the site through the Roman period with the final stage of occupation in the Anglo Saxon period Phase 7: c.AD420. The extensive structural evidence was accompanied by artefactual evidence including pottery, coins and graves. [Au(adp)]
