6 SHIP STREET, BRIGHTON

An Archaeological Watching Brief maintained on groundworks at 6 Ship Street, Brighton, East Sussex

Greatorex, C Polegate : CG Archaeology, 2002, 34pp, figs, tabs, refs

Work undertaken by: CG Archaeology

The development of a new hotel at the site prompted a watching brief. Despite being located in close proximity to the medieval core of Brighton, no archaeological remains were located. [Au(abr)]

DITCHLING ROAD, BRIGHTON

An Iron Age Roundhouse at Ditchling Road, Brighton, Sussex

Funnell, J Brighton : Brighton and Hove Archaeological Field Unit, 2002, 3pp, figs, refs

Work undertaken by: Brighton and Hove Archaeological Field Unit

In late August 2002 contractors from Brighton and Hove City Council began construction. The topsoil was removed down to the chalk substrate. An examination of the cleared area revealed a number of possible archaeological features including pits, linear disturbances and a circular ditch. The circular feature was sectioned in two places. It was a strong possibility that the circular feature was an Iron Age roundhouse. [Au(adp)]

HOG'S CROFT, Ovingdean

Interim Report 2002 Excavations at 'Hogs Croft' Ovingdean, Brighton, East Sussex

Funnell, A Brighton : Brighton and Hove Archaeological Field Unit, 2002, 49pp, colour pls, figs, tabs, refs

Work undertaken by: Brighton and Hove Archaeological Field Unit

The excavation of seven trenches in a medieval enclosure of buildings revealed the presence of substantial walls, a large flint floor, a possible well and evidence of demolition in a number of areas. The pieces of dressed stone tended to suggest that significant building may once have stood in the vicinity of Hog Croft. A number of linear features appeared to lie to the east and north of the ones excavated. [Au(adp)]

ROCKY CLUMP, STANMER

Excavations at Rocky Clump, Stanmer, Brighton

Funnell, J. Brighton : Brighton and Hove Archaeological Field Unit, 2002, 21pp, figs, tabs, refs

Work undertaken by: Brighton and Hove Archaeological Field Unit

Excavations have provided evidence for a cow burial, pits or possible tree hollows, and a ditch. Results from a resistivity survey could prove to be part of a Romano-British round house. A magnetometer survey found possible pits, post holes and a new ditch feature but produced no real evidence for buildings. [Au(adp)]
