WALLABARROW, NEAR TREWALLA, MINIONS*Wallabarrow, Near Trewalla, Minions, Cornwall*

Sturgess, J & Hooley, D Truro : Cornwall Archaeological Unit, 2002, 14pp, colour pls, pls, figs, refs
Work undertaken by: Cornwall Archaeological Unit

Damage to the cairn on two separate occasions in 2002 prompted the recording of what remains of the monument, as well as an attempt to replace some of the missing stones. After the writing of the report, data and photographs from the excavation of the cairn in 1938 came to light, showing a different structure to the one that had been known. [Au(adp)]

WELL LANE, LISKEARD*Well Lane, Liskeard, Cornwall*

Craze, N Truro : Cornwall Archaeological Unit, 2002, 23pp, figs, tabs, refs
Work undertaken by: Cornwall Archaeological Unit

The town of Liskeard was known to have medieval origins, and as such development in the area may disturb archaeological remains. However no remains were found aside from coarseware sherds, which indicated use of the site (though not intense). The site was deemed to be one of marginalised activity until population pressures dictated otherwise. [Au(adp)]

Gossip, J Truro : Cornwall Archaeological Unit, 2002, 31pp, figs, tabs
Work undertaken by: Cornwall Archaeological Unit

Two trenches were excavated next to a Grade II Listed Building before its redevelopment. Trench one at the rear of the premises identified deposits created by land reclamation, sealed by a 18th century pavement. The rear of the present property was found to have formed part of the river wall. Trench two at the front of the house found that the present basement was contemporary with the 18th century house. PROBUS TO TREWITHIAN POWER CABLE, CORNWALL*Probus to Trewithian Power Cable, Cornwall*

Cole, R Truro : Cornwall Archaeological Unit, 2002, 29pp, figs, tabs, refs

Work undertaken by: Cornwall Archaeological Unit

A watching brief was carried out in the areas of disturbance relating to the laying of a power cable. Most of the cable ran overland, but observations were made in the areas affected by footings and underground cabling. No archaeological features were noted in the immediate vicinity of these disturbances; it was noted that any prehistoric archaeology would have been destroyed by post-medieval activity anyway. ST WINWALOE CHURCH GUNWALOE*St Winwaloe Church, Gunwaloe Church, Cornwall*

Thorpe, C Truro : Cornwall Archaeological Unit, 2002, 32pp, pls, figs, tabs, refs

Work undertaken by: Cornwall Archaeological Unit

A watching brief and archaeological building recording was maintained on alterations to the Grade I Listed church. No archaeology was observed in the groundworks. The building recording recorded the removal of plasterwork. Beneath the plaster a series of alterations from the 13th to the 18th century were identified. [Au(abr)]

TREMOUGH CUC CAMPUS*Archaeological Excavation at Tremough CUC Campus, Penryn, Cornwall*

Gossip, J Truro : Cornwall Archaeological Unit, 2002, 143pp, figs, tabs, refs

Work undertaken by: Cornwall Archaeological Unit

The excavations followed up two years of surveys. The key results were the identification of five circular, post-built structures with associated Grooved Ware pottery, a group of shallow pits containing similar pottery and flint and stone artefacts, a Romano-British roundhouse containing pottery, a contemporary enclosure with pottery and stone artefacts, and fragments of a Romano-British to post-medieval field system. TREMOUGH, PENRYN*Tremough, Penryn, Cornwall. Archaeological Recording of Soakaway 2002*

Dudley, P Truro : Cornwall Archaeological Unit, 2002, 17pp, figs, tabs, refs

Work undertaken by: Cornwall Archaeological Unit

South West Region

20 artefacts were found in total, however only two were from a recognisable archaeological context. Seventeen medieval and post-medieval pottery sherds were recovered, one from the Romano-British period. A small post-medieval pit, thought to relate to the ornamental landscape, was also encountered. HILLSBOROUGH, FORRABURY AND MINSTER***Hillsborough, Forrabury and Minster, Cornwall, A Rapid Archaeological Assessment***

Dudley, P Truro : Cornwall Archaeological Unit, 2003, 34pp, figs, tabs, refs

Work undertaken by: Cornwall Archaeological Unit

The survey aimed to provide a brief, comprehensive archaeological overview of the property. This was found to be essentially a post-medieval agricultural and extractive landscape that had gradually extended further in to the coastal rough ground. The improved ground contained a number of stunningly faced boundaries, presenting a curious aesthetic touch to the environment. It also appeared that the coastal margins were once divided and grazed, and were once the focus of quarrying activity that exploited the local black slates. Closer to Boscastle Harbour, across the ridge of Penally Hill to Penally Point the coastal rough ground had a localised maritime context, with a number of sites and fetures relating to the port and its activity. Management recommendations were of a general nature and included scrub clearance, the reintroduction of grazing and comments on boundary repairs. [Au(abr)]

TREGARDOCK, ST TEATH

Tregardock, St Teath, Cornwall. Rapid Archaeological Assessment

Dudley, P Truro : Cornwall Archaeological Unit, 2003, 34pp, figs, refs

Work undertaken by: Cornwall Archaeological Unit

The survey aimed to provide a brief, comprehensive archaeological overview of the property. For the most part, the historical use of the site was found to be a strip of coastal rough ground, once used as an important part of the agricultural system as seasonal rough pasture. Post-medieval land boundaries and extraction were in evidence. Few modern developments had occurred in the area, with the exception of a World War II bomb target and two craters associated with the site's use as a bombing range. Management recommendations were of a general nature and included scrub clearance, the reintroduction of grazing and comments on boundary repairs, as well as the conservation of mining remains within the property. HELL BAY HOTEL EXTENSION, BRYHER, ISLES OF SCILLY

HELL Bay Hotel Extension, Bryher, Isles of Scilly. Archaeological Watching Brief

Sawyer, K, Butcher, S & Johns, C Truro : Cornwall Archaeological Unit, 2003, 22pp, colour pls, figs, refs

Work undertaken by: Cornwall Archaeological Unit

South West Region

The watching brief was carried out in advance of the construction of three new buildings. Evidence of human activity was confined to a small pit which contained two prehistoric flint artefacts and a sherd of imported post-Roman pottery. Much of the area had been disturbed by recent groundworks. [Au(abr)]

PENTEWAN FLOOD DEFENCE SCHEME, CORNWALL

Pentewan Flood Defence Scheme, Cornwall. Archaeological Recording

Thorpe, C Truro : Cornwall Archaeological Unit, 2002, 33pp, pls, figs, tabs, refs

Work undertaken by: Cornwall Archaeological Unit

Archaeological recording was carried out during the implementation of a flood defence scheme, as well as a detailed recording of the harbour gates in immediate environs. The original cobbled surface of the quayside, dumped material including mine waste and evidence for land reclamation were noted, as well as more modern modifications to the structure of the harbour. [Au(adp)]
