8-10 WELLS ROAD, BATH

A Report on an Archaeological Watching Brief at 8-10 Wells Road, Bath

Bradley-Lovekin, T Bath : Bath Archaeological Trust, 2002, 18pp, pls, figs, tabs, refs

Work undertaken by: Bath Archaeological Trust

The Watching Brief discovered that the groundworks associated with the development of the site disturbed possible natural clays, as well as 19th century deposits and structural features associated with two terraced houses. A length of the late 18th century revetment wall for the Wells Road turnpike was also recorded. [Au(adp)]

CHARMY DOWN, BATH

Charmy Down, Bath. Archaeological Watching Brief

Moffatt, B Warminster : ASI Heritage Consultants, 2002, 15pp, figs, refs

Work undertaken by: ASI Heritage Consultants

The monitoring was maintained during water pipeline construction, and revealed components of a prehistoric or Roman field system. The siting of the pipeline was designed to cause minimal damage and disturbance to upstanding monuments. No artefacts were recorded from land divisions that were revealed, however a small amount of Roman pottery and undiagnostic struck flint were recovered from a number of locations on the pipetrench spoilheaps. SOUTHGATE REDEVELOPMENT SCHEME, BATH

Southgate Redevelopment Scheme, Bath

Lewcun, M Bath : Bath Archaeological Trust, 2002, 36pp, figs, tabs, refs

Work undertaken by: Bath Archaeological Trust

Eight geotechnical boreholes were drilled in the Southgate area of Bath. Archaeological information gained from this study has added to understanding gained from previous surveys. Flint artefacts demonstrated Mesolithic activity, as well as a canal and other features yet to be identified. [Au(adp)]
