**APETHORPE HALL*****Apethorpe Hall, Geophysical Survey***

Brooks, I & Laws, K    Blaenau Ffestiniog : Engineering Archaeological Services Ltd., 2002, 25pp, figs

*Work undertaken by:* Engineering Archaeological Services Ltd

Six areas within the grounds of Apethorpe Hall were investigated, using the fluxgate gradiometer method. Limited activity was recorded mostly within the bounds of the walled garden. Details of the walled garden were revealed and a path and a drive were also identified. [Au(abr)]

*Archaeological periods represented:* PM

**RAUNDS*****Raunds***

GSB Prospection    Bradford : GSB Prospection, 2002, 18pp, figs

*Work undertaken by:* GSB Prospection

A geophysical survey was carried out in a garden for Time Team. The GPR identified one gravecut and natural anomalies. The fluxgate gradiometer identified pit anomalies and the resistivity survey identified ridge and furrow. [Au(abr)]

**LAND AT MILTON HAM*****Land at Milton Ham, MI Junction 15a***

Bonsall, J & Webb, A    Northampton : Northamptonshire Archaeology, 2002, 19pp, figs, tabs, refs

*Work undertaken by:* Northamptonshire Archaeology

A fluxgate gradiometer survey was carried out on the site. An enclosure system was identified, suggestive of a small-scale settlement. Ridge and furrow was identified across the site. [Au(abr)]

**WOOTTON**

*Wootton*

Shiel, D Bradford : GSB Prospection, 2002, 26pp, figs, tabs

*Work undertaken by:* GSB Prospection

A fluxgate gradiometer survey was carried out on the site. Ridge and furrow, two possible circular enclosures and a number of ditches were identified. Two parallel linear features are thought to represent a possible track. [Au(abr)]

*Archaeological periods represented:* UD
