PASSENHAM QUARRY EXTENSION

Proposed Passenham Quarry Extension, Milton Keynes

Morris, S & Chapman, A Northampton : Northamptonshire Archaeology, 2002, 24pp, figs, tabs

Work undertaken by: Northamptonshire Archaeology

A magnetometer survey was carried out on the site. A multi-phase possibly Iron Age/Romano-British ditch enclosure system was identified. A further smaller undated enclosure system was also identified along with possible Bronze Age ring ditches. [Au(abr)]

Archaeological periods represented: BA, IA, RO, UD

SITE Q2, KNOWLHILL, MILTON KEYNES

Site Q2, Knowlhill, Milton Keynes. Magnetometer (Gradiometer) Survey

Johnson, A, E Oxford : Oxford Archaeotechnics, 2002, 13pp, figs, refs

Work undertaken by: Oxford Archaeotechnics

A gradiometer and magnetic susceptibility survey was carried out on the site. Traces of medieval ridge and furrow cultivation were revealed, as well as isolated pits and hollows of unknown origin. [Au(adp)]

Archaeological periods represented: MD, UD
